

UR18

Technical specification

The UR18 combines strength and agility, supporting larger end effectors to lift heavier payloads while remaining light enough for easy mounting on most standard gantry systems. With a 950 mm reach and speeds up to 4 m/s, it's ideal for fast-paced pick-and-place deployments where reducing cycle times is crucial.

Today, more than 100,000 UR collaborative industrial robots have been delivered to customers across industries and around the world. The newest series of UR cobots brings unparalleled performance, adaptability and user experience.
