

UR + Rocketfarm Pally Bundle

Palletizing made simple – For every production floor

A complete, feature-rich palletizing solution optimized for PolyScope X, now available at a competitive bundle price.

Simplify your palletizing projects, cut engineering time, and scale faster with full control and flexibility.

Why this bundle?

Built for speed

Powered by PolyScope X, Pally brings out the best of Universal Robots, meaning robust simulations, fast deployment, and flexible pallet changeovers. Pally makes use of UR's leading motion performance for optimized cycle times. Build your own tooling or choose to plug-and-play connect with popular palletizing grippers.

Sell smarter with MyRobot.cloud

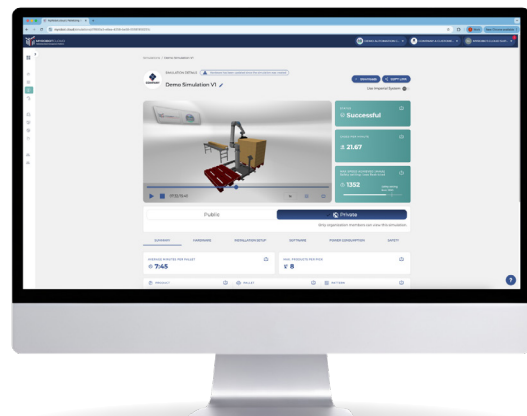

Pally and MyRobot.cloud work seamlessly together allowing you to configure, simulate, and validate palletizing projects online with smooth data flow between software and cloud. Easily manage and back up robot setups, test new patterns, and keep projects organized, making it simple to oversee and update palletizing operations across multiple customer sites. Share digital twins with customers to speed up approvals and ensure every deployment is transparent and efficient.

Competitive bundle value

One complete solution; robot + software for the price of a standard UR robot. A bundle price that helps you win more projects and protect margins.

Support that scales

Each bundle includes onboarding, training, and multi-level support from UR and Rocketfarm.

What's included

- UR collaborative robot (UR12e / UR20 / UR30)
- Rocketfarm Pally palletizing software*
- Access to myrobot.cloud for online simulation and setup (1 year, renewable)
- Multi-level support
- Training, updates, and full technical support

* For PolyScope X: Includes a perpetual Pally license.
For PolyScope 5: Includes a 3-year subscription "Active license".

Real-world success

Norwegian meat producer **Nortura** faced limited floor space and a tight budget. Discover how they used the **Pally Bundle** to automate palletizing efficiently, boosting throughput without expanding their footprint.

PolyScope X license options:

PALLY

- ✓ Pally Operator Panel
- ✓ Shim Paper Routine
- ✓ Robot Waypoint Generator
- ✓ Offline Pallet Builder
- ✓ Vacuum Gripper
- ✓ Multipick & Smart Grip
- ✓ Change language
- 🔒 Live data during palletizing
- 🔒 Partial Pallet
- 🔒 All Gripper Types Supported
- 🔒 Reports in Pally
- 🔒 Order Management
- 🔒 Dual Product Mode
- 🔒 Dual Infeed
- 🔒 Agreed Customization

PALLY PLUS

- ✓ Pally Operator Panel
- ✓ Shim Paper Routine
- ✓ Robot Waypoint Generator
- ✓ Offline Pallet Builder
- ✓ Vacuum Gripper
- ✓ Multipick & Smart Grip
- ✓ Change language
- ✓ Live data during palletizing
- ✓ Partial Pallet
- ✓ All Gripper Types Supported
- ✓ Reports in Pally
- ✓ Order Management
- 🔒 Dual Product Mode
- 🔒 Dual Infeed
- 🔒 Agreed Customization
