

ReAutomated: The Virtual Experience

Rethinking Automotive Manufacturing

15:00-15:45 CEST
9:00 AM - 9:45 EDT

Rethinking Automation Processes | Expert panel with Q&A session

A discussion on innovation opportunities for businesses in the automotive industry with: Andrzej Mencina, Head of Smart Production at ZF LIFETEC Passive Safety Systems. Albane Dersy, Co-founder & COO at Inbolt. Tomasz Sernicki, Commercial and Marketing Manager at Drim Robotics. Paula Carsi De La Concepcion, EU & IMG Mfg Innovation Manager at Ford Motor Company.

15:45-16:20 CEST
9:45 AM - 10:20 EDT

Solving manufacturing challenges | Expert panel with Q&A session

Our panel of industry leaders and experts dive into solutions to common manufacturing challenges.

16:20-16:45 CEST
10:20 AM - 10:45 EDT

5 key robotics trends

Speaker: Susanne Bieller, General Secretary at the International Federation of Robotics (IFR)

Get up to speed on the most anticipated trends shaping robotics and automation.

16:45-17:05 CEST
10:45 AM - 11:05 EDT

AI and robotics

Speaker: Albane Dersy, Co-founder & COO at Inbolt

An exciting presentation on how automotive companies benefit from adopting AI technology.

17:05-17:15 CEST
11:05 AM - 11:15 EDT

Interview: Getting started with collaborative automation

Speaker: Keith Fox, Global Director of Industry Segments at Universal Robots

Interview with Keith Fox on how benefits, stumbling blocks and different approaches in collaborative automation.
